

Mooring ID	Relative position on platform	Instrument Identifier	Sampling Scheme (optional)	Data Type (optional)	Version	File Extension
746	First three digits identify a unique mooring or tripod number.					
	4	relative position, where 1 is the top instrument				
		pt	pressure - temperature logger			
		adc	T-RDI ADCP water flow			
		wh	T-RDI ADCP water flow data (older name)			
		adv	Sontek ADV and associated sensors			
		pca	Sontek PCADP and accessory sensors			
		abs	Acoustic Backscatter Sensor			
		bt	Brancker temperature logger			
		mc	MicroCat temperature and salinity logger			
		sc	Seacat temperature and salinity logger			
		att	Transmissometer			
		rcm	Aanderraa current meter			
			1	First sampling scheme when multiple schemes are used		
			2	Second sampling scheme when multiple scheme are used		
				b	Burst data (for instruments with burst and statistics files)	
				s	Statistics of the bursts (for instruments with burst data)	
				-a	USGS best basic version	
				-a1h	Hour averaged best basic version	
				-cal	provisional	
					.nc	netCDF file extension
					.cdf	netCDF file extension
